

Alberto López Pérez

SUMMARY

Adept Full Stack Web Developer with a proven track record at Accenture, enhancing web applications using Node.js, Vue, and React. Skilled in Agile methodologies and Python, I excel in transforming client needs into robust solutions, significantly improving project delivery times. My strong debugging abilities and collaborative teamwork drive software excellence and innovation.

EXPERIENCE

Accenture - Full Stack Web Developer
Barcelona, Spain • 05/2018 - Current

- Developed and maintained web applications using NodeJs, Vue, Angular, React, MongoDB and Tailwind CSS.
- Worked with several teams with Agile methodologies to deliver high-quality software products.
- I've worked with clients to understand their needs and turn them into practical solutions.
- I've estimated project timelines and effort to help plan work more effectively.

Datumize - Software Developer
La Pineda, Spain • 02/2017 - 12/2025

- Worked on a data collection project using web scraping with Python, storing the gathered data in MySQL and building the front-end with Angular.
- Followed Scrum methodology, which helped me improve my workflow and start applying software development best practices, including design patterns.
- Documented processes used in web scraping activities such as download frequency and storage location.
